

HELP PREVENT SEXUALLY TRANSMITTED INFECTIONS TODAY.

Attention Healthcare Providers in North Carolina: Help NCDHHS tackle the rise in STIs by offering your clients **FREE point-of-care testing** for HIV, HCV and syphilis.

WHY Act Now?

- **Urgent Need:** NCDHHS is ramping up efforts to increase HIV, HCV and syphilis testing among sexually active individuals. Visit the [NCDHHS website](#) for up-to-date HIV, HCV and syphilis trends and additional provider resources.
- **Early Detection Saves Lives:** Timely testing and treatment can significantly reduce transmission rates for HIV, HCV, and syphilis.
- **Community Impact:** Lower infection rates and stop the spread of STIs in the communities you serve.

WHY Join the Rapid Testing Program?

- **Comprehensive Testing Tools:** Screen for HIV, HCV and syphilis – all at no cost to you or your patients!
- **Fast Results:** Get results within 20 minutes!
- **Real-Time Decision Making:** Make informed clinical decisions on the spot.

HOW to Get Started

- **Learn More:** Visit our [Rapid Testing Program Page](#) for full details and benefits.
- **Apply Now:** Complete your application [here](#) to receive your free test kits.
- **Contact Us:** For questions or more information, email NC.Rapid.Testing@dhhs.nc.gov.

Additional Requirements:

- **CLIA Certification:** Ensure your facility is CLIA certified. [Apply here.](#)
- **HIV Testing Licensure:** Obtain necessary licensure. [Apply here.](#)
- **Data Reporting:** Report relevant testing and outcome data; requirements will be provided.

Together, we can stop the spread of STIs in North Carolina.
